## CFP: CISOSE 2024 Special Tracks

---

Technology has the power to do many things, and to change the world. Innovations and new technologies are changing our daily lives. Many things that were mere future visions of the past are now a reality.

After a long journey that started in 2005 with the IEEE International Workshop on Service-Oriented System Engineering (SOSE), in 2015 CISOSE became an IEEE International Congress on Intelligent and Service-Oriented Systems Engineering (CISOSE). Since then, CISOSE grouped six conferences that cover the whole range of Service-Oriented System Engineering and its Applications, from Artificial Intelligence and Big Data to Distributed, Cloud, and Mobile systems. Our missions include fostering technologies for new Internet-based services such as green computing, UAVs, and smart cities. We must note that all services are now supported by AI, and its ethical issues must be focused on building services.

This year, in addition to offering an umbrella to the six main conferences, we plan to organize special tracks for emerging research areas. We welcome papers that drill down new trends in internet services supported by AI. The target areas are not limited, but we assign dedicated track chairs to:

- |   |  |
|---|--|
| o Green Cloud and AI Services Engineering                 | (chaired by Paul Townend)                |
| o Smart City, Big Data and AI Services                    | (chaired by Iraklis Valamis)             |
| o Learning, Estimation and Control in Intelligent Systems | (chaired by Stas Tiomkin)                |
| o Emerging AI Technologies and Big Data                   | (chaired by Priyanka Chawla, Guanqiu Qi) |
| o Sustainability and ESG Technologies                     | (chaired by Fanjing Meng, Shuguang Qi)   |
| o Responsible AI  | (chaired by Fanjing Meng, Xiaotian Xu)   |

The paper must be within ten pages in IEEE CS Conference format.

### IMPORTANT DATES:

- Abstract Submission: April 20, 2024
- Paper Submission: ~~April 20, 2024~~, **April 30, 2024**
- Notification: ~~May 15, 2024~~, **May 21, 2024**
- Final Manuscript Due: ~~May 22, 2024~~, **May 30, 2024**

**SUBMISSION SITE:** <https://easychair.org/conferences/submissions?a=32169729>

**CONTACT:** SATO, Hiroyuki (U. Tokyo, Japan). [schuko@satolab.itc.u-tokyo.ac.jp](mailto:schuko@satolab.itc.u-tokyo.ac.jp)

### ORGANIZING COMMITTEE

General Chairs: Zeyu Gao (San Jose State U., USA),  
Hiroyuki Sato (U. Tokyo, Japan)

TPC Chairs: Paul Townend (Umea U., Sweden),  
Iraklis Valamis (Harokopio U. of Athens, Greece),  
Fanjing Meng (IBM China)
